SUMMARY

Motivated full-stack developer (MERN) seeking an internship to apply and grow full-stack skills in production-style projects. Built multiple frontend applications with React and vanilla JavaScript, and now extending into backend development with Node.js, Express, and MongoDB. Strong problem-solving foundation in Data Structures & Algorithms.

SKILLS

- Languages: HTML, CSS, JavaScript, C++
- Frontend: React, DOM Manipulation, Responsive Design
- Backend: Node.js, Express.js, MongoDB, REST APIs
- Core Concepts: Data Structures & Algorithms (140+ problems solved on LeetCode), OOP
- Tools: Git, GitHub, VS Code, Postman

EDUCATION

Bachelor of Technology (B.Tech) — Computer Science Engineering | CMRU
CGPA: 9.04 | Expected Graduation: 2027

Pre-University (PU) | SJICPUC
Percentage: 90% | 2023

CERTIFICATIONS

Green Skills & AI — Skills4Future Program
Edunet Foundation, AICTE & Shell India Markets Pvt. Ltd. | Oct 2025 – Feb 2026
Advanced course covering AI/data fundamentals — data extraction, cleaning, and visualization using Python

ACADEMIC PROJECTS

Track Hire — Recruitment Application Tracker ***(Ongoing)***

- Built a recruitment application tracker to organize job applications and monitor their progress across different hiring stages.
- Implemented email-content parsing using rule-based regular expressions to extract details such as company, role, date, and application stage.
- Added a review and confirmation flow allowing users to edit extracted information before storing it.
- Developed REST APIs with Node.js and Express.js and persisted application data using MongoDB.

GitHub: github.com/Deepikav123/TrackHire

Freelance Bidding Platform

- Designed and developed a role-based freelance bidding system (Client & Freelancer modules).
- Implemented gig creation, bid submission, status updates, and conditional UI rendering using vanilla JavaScript.
- Built custom state management using localStorage with consistent data synchronization.
- Highlights problem-solving skills, ability to handle complex logic, and practical web application development.
